Approved For Release 2006/10/31 : CIA-RDP74B00415R000200080015-2

10. (Confidential - GLC) At the request of the Senate Armed Services Committee the transcript of the Director's briefing on SALT verification of 26 June was made available for Committee hearings on this subject this week.

11. (Unclassified - GLC) At Mr. Thuermer's invitation I joined Tom Dine, Legislative Assistant to Senator Frank Church (D., Idaho), and Thuermer at lunch in the Executive Dining Room. During the luncheon conversation we talked about the problems of secrecy in Government and the impact of the Cooper bill, S. 2224, on the Agency.

12. (Unclassified - PLC) James Kronfeld, Staff member, Subcommittee on Foreign Operations and Government Information, House Foreign Operations Committee, called inquiring as to our implementation of E. O. 11652 on classification. He requested a short letter to Chairman Moorhead advising that we are implementing the Order. He also requested a copy of our regulation even if classified. I told him we were implementing the Order, andthat a short note probably could be forwarded. I also told him I would look into the request for a copy of our regulation since due to the nature of our activities, it may be for internal use only.

13. (Unclassified - LLM) Called Mr. Bill White, Office of Management and Budget, to ask for the status of OMB's clearance of the Director's report to Chairman McClellan, Senate Government Operations Committee, on S. 3529, advisory committee legislation. Later Mr. White called and cleared the report for transmittal.

14. (Unclassified - LLM) Called Ray McRae, Minority Counsel, Senate Government Operations Committee, in connection with the Committee's executive session on a number of legislative items, including S. 3529, advisory committee legislation. He said he would look out for our interests, but that he doubted that the Committee would even have a quorum, or if they did, that they would get to S. 3529 as there were a number of other legislative items which would take precedence. I explained that the Office of Management and Budget had not officially cleared the Director's report to Chairman McClellan and that we would want our views known before the full Committee takes action on the bill.
